

** ARGENTINA. 28505 USB, Sept 22 at 2207, LU1XAW, Patagonia, calling CQ DX in English. QRZ.com: ``LU1XAW Argentina flag Argentina, FERNANDO F. BARCENA, ALCORTA 716 CP Z9400GCJ, RIO GALLEGOS, SANTA CRUZ, PATAGONIA ARGENTINA, SC 9400, Argentina``. In Argentina, the letter after the number signifies the geographical area, not the number. It's over 10 megameters from Rio Gallegos to Enid (Glenn Hauser, OK, WOR)

** AUSTRALIA [and non]. 28475 USB, Sept 24 at 2206, VK4SX, Michael, apparently in contact with SP7GXP, but would not expect Poland to be propagating now. QRZ.com shows: ``SP7GXP Poland flag Poland, ZELGA WALDEMAR, PO BOX 626, RADOM 14 26-615, Poland`` and:

``VK4SX Australia flag Australia, Dennis.A. EDEY, NO QSL, NO QSL AT ALL, Bundaberg, QL 4670, Australia`` and: that callsign is really the model of his antenna! `` (NEW SP7GXP 13/6 Beam 2EL 40M 3++elements 20-thru 10m 5 on10m)`` so I never copied his contact's call. Several other phonesigs on 10m including a CE3, YL on 28455 USB (Glenn Hauser, OK, WOR)

** BARBADOS. 21294 USB, Sept 22 at 2220, quick contacts including one with KC3WRH in Maryland also heard, but can't catch his call. No 8P6's currently in DXheat/cluster. Not necessarily the case with this one, but it's very frustrating when DX stations don't ID themselves with every transmission. IMHO, any contact to be valid has to include *at least once* the call of the contactee, and ``this is``, or ``from`` the call of the contactor! And vice versa (Glenn Hauser, OK, WOR)

** BRAZIL. 6180 S5/S7 and slightly weaker 11780 into Goiânia remote, UT Tue Sept 23 at 0152, RNA/RNB token English already underway, something about climate change, apparent new topic; finishing already at 0153 with outro, 0154 ID, English again but then translating to Spanish. Usual wrapup and off by 0200* (Glenn Hauser, OK, WOR)

** CHINA. 21800, Sept 18 at 1421, fluttery JBA Chinese?, the OSOB. Presumed CNR1 jammer vs Sound of Hope, only things `scheduled` but supposedly in a break 1400-2300, per EiBi & Aoki (Glenn Hauser, OK, WOR)

** CUBA. 15140, Sept 18 at 1424, Spanish, music, RHC S9+25; at 1426 also on 13780, S8/S9 undermodulated; 11760 S7/9+5; and S5/S9 of dead air on 15230. Something's always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 6000, Sept 19 at 0607, RHC still on S9+25/35 suptorted but I can tell it's Spanish, not English. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9790, Sept 19 at 0604, S9+20/25 of dead air, obviously the CRI relay transmitter still on long beyond its normal hours of 03-05 (Glenn Hauser, OK, WOR)

** CUBA. 11760, Sept 21 at 0056, RHC IS and Spanish ID, not on any 15 or 13 MHz frequency. 9710 is on but not // with jazz past 0100, and English announcement at 0101. 6000 is on but not enough modulation to make a sure match to either (Glenn Hauser, OK, WOR)

** CUBA. 11760 & 15140, Sept 21 at 1432, RHC Spanish, and dead air on 15230, no signal on 13780 (Glenn Hauser, OK, WOR)

** CUBA. 15140, Sept 21 at 1908, RHC English not off the air, S9+10/25 into Georgia SDR, but with squealy QRM, not on 11760 or anywhere else (Glenn Hauser, OK, WOR)

** CUBA. 11760, Sept 22 at 1858, RHC music, Kriyol announcement, 1900 Spanish ID, IS of gentle Viva la Revolución, 1901 open English,

previewing news, commentary, medical news, sports, cultural news in this first [and only] hour. S7/S9 into Knoxville SDR, rather muddy modulation, listening not easy. No 15140 before or after 1900 to 1910, supposedly the primary frequency at this hour. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, Sept 22 at 2159, only RHC frequency found on air, but dead, still 2211, off by 2215 check. Something's always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13780, Sept 23 at 2211, RHC S9+20 with ``Revista Nuestra América``; S9+10 of deadair on 15230, nothing on 11760. Something's always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, Sept 24 at 1909, RHC JBA in English; off by 2006 (Glenn Hauser, OK, WOR)

** CUBA. 15230, Sept 24 at 2216, S9+10/20 of dead air or maybe JBM; also 11760 dead air at S9+20/30 except for a swishing sound. But 13780 is S9+20 modulating Spanish about the year 1898. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA [non]. NO activity this Saturday evening from R. Martí, on 6, 7, 9, 11 or 13 MHz channels around 0100 UT September 21.

13605 S7/S9, 11930 S6/S7, 11860 S7, 1433 UT Sept 21, all these Martíes are on this Sundaytime (Glenn Hauser, OK, WOR) See also USA: La Voz del Trumpismo

** CUBA [non]. 11860, Sept 24 at 2159, R. Martí announces next set of frequencies, 7335, 9565, 11930, before 11860 goes off (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 15410, Sept 22, timesignal ending a few sex before 1432, what??? and Chinese JBA with Doppler flutter. CRI Kashgar is listed at 1400-1457 (Glenn Hauser, OK, WOR)

** JAMAICA. 28448 USB, Sept 22 at 2202, 6Y5CB, Jay, contacting CX7RN. And at 2209 on 28468 USB with CX6DZ. QRZ.com: ``6Y5CB Jamaica flag Jamaica, Causland J "Scorpio" Burnett, Flower Hill, Salt Spring PO, Montego Bay, Jamaica`` (Glenn Hauser, OK, WOR)

** MADAGASCAR. 17700, Thu Sept 18 at 1423 the SS0B S6/S9 sounds like Hindi. Yes, per EiBi & Aoki it's [K]TWR Asia Guam via Talata in Hindi on days 3 & 5, 5=Thursday. Lang depends on DOW in quarter-hour blox. Only other 16m sig is much weaker 17815 = Turkey (Glenn Hauser, OK, WORLD OF RADIO 2313)

** MEXICO [and non]. 760, Sept 20 at 0617, underneath KCCV still cheating and WJR, I JB hear a mention of ``Radio Cañón`` -- that's all I need to log XEABC, as in IRCA Mexican Log:

``760 XEABC Mex Los Reyes de la Paz 70000 10000 Radio Cañon {sic}, XERAG Radio Alegría, Tus Mejores Recuerdos, La 7-60, La Estación del Valle de México, Recuerdos en 760, Alegría 760 AM 24h REC/VAR/CLA ABC

No FM. U4? Still maintains a Facebook page with fake call letters XERAG for its "Radio Alegria" {sic} program. ABC/NTR stations are struggling to update their branding and formats. Still active on AM 7/25 (logged by DXer), and included in 7/25 IFT list``

About the spelling of Cañón - even lazy natives often omit the accent on the o, which is absolutely required since it's stressed on the last syllable ending in n! --- Hey, we put a tilde ~ on the n, so isn't

that enough??? And I can't find anywhere in Log what NTR stand for – maybe ``No Tildes Required``? (Glenn Hauser, OK, WOR)

** SCOTLAND [non]. 5850, UT Sat Sept 20 at 0554, surprised to hear classical music on this WRMI; could it be an encore of `Encore`? Yes, a minute later Brice Avery announces, but does not say good-bye as he always does *before* the final piece of music, so this must not be the end of an hour starting at 0500! Also he mispronounces Cherubini, Josquin and Guillaume, cringe. I hasten to check other WRMIs for possible parallels – maybe 7730, 7780? Both too weak direct to be certain. The music is rudely chopped off at 0559:30 for ``Everglades`` ID, 0600 joining WRN for DW.

The skedgrid for WRMI-12 5850 shows System E WRN at 0400-0800, but Encore is not on WRN schedule; at 0530, Slovakia. Below, the System E program grid shows WRN at 0500-0600 on all these!: 5800, 5850, 5950, 7730, 7780, 9455, 9955. But 5800, 5950, 9455 and 9955 are OFF!

Apparently Encore playback started circa 0530 even tho only one semi-hour was available for it. Latest publicized times for it are instead:

``Dear Listener,

Regular Broadcast times of Encore By WRMI and Channel 292 are:

02:00 – 03:00 UTC Friday 5850 kHz WRMI to US

20:00 – 21:00 UTC Friday 15770 kHz WRMI to Europe

10:00 – 11:00 UTC Saturday 9670 kHz Channel 292 to Europe

01:00 – 02:00 UTC Sunday 5850 kHz WRMI to US and Canada

19:00 – 20:00 UTC Sunday 3955 kHz Channel 292 to Europe

02:00 – 03:00 UTC Monday 5950 kHz WRMI to the US and Canada

13:00 – 14:00 UTC Tuesday 15770 kHz WRMI to Europe, east coast of US and Iceland. (Sometimes RTTY on the lower sideband. Suggest notch out or use USB.)

Some Things to see on The Encore Website:

The Encore website is www.tumbril.co.uk where you will find:

Important information about funding of Encore – Radio Tumbril.

Up to date transmission times and frequencies.

The playlists for the most recent programmes.

An email link...``

The names I heard mentioned appear nowhere on the Playlists for this fortnight, nor the previous one – so maybe remnant of an older show still inhabiting the WRMI server and somehow brought up on this unexpected occasion; the only ENCORE there now is the latest, uploaded 9/17 (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+30/40 and 15390 JBA direct, Sept 21 at 2300, REE signing off with schedule, 2301 earworm IS, still no 15500 or 15520 (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Wed Sept 24 at 2200, REE S9+30/40 direct for S America, // JBA 15390 for Africa, intro weekly English hour originally ``live` 12 hours earlier, again with Marilyn Quintana only, previewing: legacy of journalist Bárbara Probst Solomon, a bridge between Spain and US; director of Make Mothers Matter org; newly discovered species of giraffe with Michael Brown. 2202 news begin with UNGA. Available {sic}:

<https://www.rtve.es/play/audios/english-language-broadcast/english-language-broadcast-barbara-probst-solomon-bridge-beetween-spain-and-us/16742340/>

Alan Roe pointed out after last week's: ``Although only Marilyn was heard on-air both last week and this week, Amy Egan still got a name-check at the end of both episodes – so maybe she is on an extended vacation. Alan Roe, Teddington, UK`` (Glenn Hauser, OK, WOR)

** TURKEY. 11785.009+, Sept 19 at 2200, VOT English not off the air, S9+55! into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, Sept 20 at 2203, VOT English not off the air, S9+50! into UTwente (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 11660.009, Sun Sept 21 at 1643 into UTwente, VOT English S9+25/30 starting `The Pulse of Turkish Foreign Policy`. 1651 TRTVOTWorld.com news in 41 languages promo – a shortened version, music. 1655 replay same already!

And start `The Letterbox Programme`, which Cemre opens with a cup of tea, and coming up from Japan, USA, Australia, China. 1) Mr Francis --, Dublin, Ireland, reports German on 9840, Turkish on 9460. Will forward report to YL QSL manager when back from annual leave. 2) Mohammed Breyel?, KL area, Malaysia. Not sure of surname, but sure sounds like same as well-known DXer Timm Breyel: are they the same, or related?

3) Mikhail? Rybstczak?? Poland. 4) Mr Miroslav Brunar?, central Slovakia, OL7AMT? Aha, maybe I can look him up at QRZ.com – OL would be Czechia; finally found as: `OM7ANT Slovak Republic flag Slovak Republic, Miroslav "Miro" Brunner, Banská Bystrica, Slovak Republic`!

5) Jayanta Chakroborty, northern India: what is the % of internet coverage in Turkey? Is there a national digital payment system? Yes, called `Troy`. 86-87% of people as of 2024y, more so urban than rural. 6) Mr Fahri? --, Indonesia, heard Malay on 17720.

7) Ricky Hein, South Dakota, still complaining that something is wrong with the A41 antenna causing SINPOs in the ones for him on 11785, 7275. She will pass on to engineers, never suggests the problem is propagation or at his end, but he should try streaming. 8) Hideki? Suiyaki? Japan. 9) Shanhan Kong?, China, reports from May of Malay, Shazaam fails to ID songs, so Cemre looks them up and even spells! them, like she should names of L`Boxers.

10) finally, Paul Simmonds, Ashbourne, near Adelaide SA, heard Turkish, sends wildlife photos, ham VK5PAS. Lots of WL and other photos, extensive autobiography on his page:

<https://www.qrz.com/db/VK5PAS>

`VK5PAS Australia flag Australia, Paul SIMMONDS, PO Box 169 Mount Barker, South Australia 5251`. 1721 ends with VOT postal address which she never spells despite unfamiliar names; 1722 theme -- this was a *long* L`box, 28 minutes; `always-by-your-side` promo.

1723 s/off as if 17620 at 1230, something`s always awry at Ankara, 1724 IS. 1726 restart IS with *French* IDs which is supposed to be on 7360 to Central Africa by 1730. Erroneous at Emirler. 1728* cut off 11660, uncovering an S9+25/35 carrier which after 1730 is in Chinese, i.e. CRI in Mandarin to Europe via Shijiazhuang site per EiBi (Glenn Hauser, OK, WOR)

** TURKEY. 11785.007-, Sept 22 at *2158, VOT cuts on with IS & IDs in English, 2200 timesignal and s/on as if it were 1230 on 17620! S9+20 direct but modulation seems a bit low. Something`s always awry at Ankara. At 2246 into UTwente when measured, S9+50 (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Sept 23 at 2157, VOT not off the air, S9+20/30 direct but undermodulated, with IS. Also Sept 24 at 2158 IS & ID, S9+20/30 direct (Glenn Hauser, OK, WOR)

** U K. 9500, Sept 20 at 1927 tune-in until 1959 or so, Radio Love Warbler, final broadcast, via Woofferton, VG S9+20/25 into UTwente. Human voices performing imaginary birdcalls – certainly a unique concept, and hope it's recorded somewhere for further enjoyment. 1955 announcement ``broadcasting from Kent in the UK`` and radio.love.warbler@gmail.com address. See: <https://www.creativefolkestone.org.uk/artists/hanna-tuulikki/> which still shows wrong date of Sept 23: don't you believe it. Heavy clicking QRM cut on at 1958 covering 9495 to 9525+, OTH radar? (Glenn Hauser, OK, WOR)

** U S A. 1860 AM, Sept 21 until 0703 UT, WA0RCR with first-hand account of a ham's attempts to monitor police etc., in the immediate aftermath of 9/11, suggestions to be better prepared next time; outro as having been `This Week in Amateur Radio`; not to be confused with ex-Adventist SW in Costa Rica, TIAWR (Glenn Hauser, OK, WOR)

** U S A. 21412 USB, Sept 23 at 2156, K6ILB in Modesto calling QRZ for check-ins to the Pacific Maritime Mobile Service Net. No hits at QRZ.com on K6ILB, but leads instead to: ``K6TPP USA flag USA, KEVIN A LASSITER, 4830 STONERIDGE CT, FAIRFIELD, CA 94534, USA``

However, searching on Modesto there is a similar call: ``K6IRB USA flag USA, Raymond B Bennett, 2837 Woodmont Cir, Modesto, CA 95355, USA``

I find website of the net where neither call appears:
<https://www.pmsn.net/>

NCS table shows Tue at 2200 it's supposed to be: ``KG0SY Carl IA``, but that was as of 2023. O well (Glenn Hauser, OK, WOR)

** U S A. 28375 USB, Sept 21 at 1408, KC1BBU about the only phone signal on 10m. QRZ.com: ``KC1BBU USA flag USA, Robert J "BOB" Larkin, 2 BEVERLY WAY, WAREHAM, MA 02571, USA`` (Glenn Hauser, OK, WOR)

** U S A. 11930 > 7335 > 9565, Sept 21 at 2257, R. Martí has become La Voz del Trumpismo, apparent live speech with translation to Spanish (Glenn Hauser, OK, WOR) See also CUBA [non]

** U S A. 13605, 11930 & 11860, Sept 23 at 1504, La Voz del Trumpismo, UN speech live in English with YL voiceover translation to Spanish. Finished by 1506, on to other voices (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2312 monitoring: confirmed UT Thursday September 18 at 0130 on WRMI 5010, S7/9+5 into NH SDR way off the back.

Also confirmed Thursday September 18 at 1650 the 1631 on SW Gold Radio, Germany, 6160.001-, S9/+15 into UTwente with +ACI from RTTYditty and CRI Turkish via Urumqi 6165.

WORLD OF RADIO 2313 contents: Alaska, (Armenia), Belize, Brasil, (China), Cuba and non, Ecuador non, Equatorial Guinea, Finland, France, Germany, Greece, Guam and non, Indonesia, Iran, Japan, Kaliningrad, Korea North & South, Kurdistan non, (Madagascar), Mexico and non, Norway non, Philippines), Romania, Spain, Taiwan, (Tajikistan), USA and non, (Uzbekistan); propagation outlook – (countries mentioned along with others not in order)

WOR 2313 available from 0159 UT Friday September 19:
(mp3 stream) <https://www.w4uvh.net/wor2313.m3u>
(mp3 download) <https://www.w4uvh.net/wor2313.mp3>

2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks to Peter Robinson, Preston UK, for very generous financial support, via PayPal to woradio at yahoo.com

One may also contribute via money order or check on a US bank to:
Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2313 monitoring: confirmed first SW BC, Friday September 19 at 1300 on WRMI 15770, S8/S9 direct.

Also confirmed Friday September 19 at 2030 on IRRS SW via AM Italia, 1322.994+, S8/S9+10 into utwente; S9+5/12 into nearby Noale SDR, and still not also trying 918 or 207 kHz.

Also confirmed Friday September 19 at 2200, inaudible under noise at Bonaire; but S9+30 on WRMI 9955, into Georgia SDR, and signal briefly dropped off 2 or 3 times around 2215, uncovering presumed splash from 9930 WTWW.

Missed checking Fri Sept 19 at 2230 on SWG Radio, Germany, 3975; anyone hear it?

Confirmed Saturday September 20 at 1434 the 1431 on SW Gold Radio, Germany, 6160.001-, S9+10 into UTwente.

Also confirmed Saturday September 20 at 1600 on WRN North America stream. Forgot! to check whether also on any WRMI frequencies now relaying WRN. However, at 1637, via Georgia SDR, I do hear NHK on 9395, and JBA 7730, as scheduled on WRN, so WOR probably did appear at

1600.

Also confirmed Saturday September 20 at 1731 on SW Gold Radio, Germany, 6160.000 S9/+10 with RTTYditty on plus side; and 3975.001- S9+5/10 into UTwente. Next:

1930vUT Saturday WA0RCR 1860-AM [1900/2100];
1930 UT Saturday WRN via WRMI 9395 [new];
2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTTW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1030 UT Sunday WRN via WRMI 7730 7780 9395 9955 [new];
1830 UT Sunday SW Radio, Germany 3975 & 6160 [ex-2130];
1900 UT Sunday IRRS SW via AM Italia 1323;
2100 UT Sunday WRMI 15770 to NE;
2300 UT Sunday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, W0R)

** U S A [and non]. WORLD OF RADIO 2313 monitoring: confirmed Saturday September 20 at 1930 on WRN via WRMI 9395, S9+10/25 into Georgia SDR.

As usual, very difficult to confirm the Saturday 1930v on WA0RCR, 1860 AM, MO, as the two KiwiSDRs very close to St Louis can't get it at all in the daytime. N9AZZ, further away in IL, gets traces, such as at 1933, S5 in noise, I think it's my voice; does not improve before 2000 altho last week it was much more audible when running a bit late after 2000.

Also confirmed Saturday September 20 at 2000 on WRN Europe stream.

Also confirmed Saturday September 20 at 2100 on WRMI 9395, S9+20/35 into Georgia SDR.

Also confirmed Saturday September 20 at 2230 on WRMI 15770, S9+10/20 into UTwente where it's aimed; followed by VOSR at 2300, another DX program from a surfer on Molokai.

Also confirmed UT Sunday September 21 at 0254 about 11 minutes into, so started early circa 0243 the 0315v on WA0RCR, 1860 AM, MO, S7/S8 into N9AZZ remote vs very heavy storm noise, just barely readable.

Also reconfirmed Sunday September 21 at 1048 the 1030 on WRN via WRMI, 9395, 9955, 7780, 7730.

Also confirmed Sunday September 21 at 1854 the 1831 on SW Gold Radio, Germany, 6160.000 S8/9 with RTTYditty on plus side, and slightly delayed on 3975.001+ S9.

Also confirmed Sunday September 21 at 1900 on IRRS SW via AM Italia,

1322.994+, S9+5 noisy into UTwente across Europe. Next:

2100 UT Sunday WRMI 15770 to NE;
2300 UT Sunday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2313 monitoring: confirmed Sunday September 21 at 2000 on IRRS via AM Italia, 1322.994+, S9+5 into UTwente.

Also confirmed Sunday September 21 at 2022 the 2000 on WRN Europe stream.

Also confirmed Sunday September 21 at 2100 on WRMI 15770, S9+15/20 into UTwente, where it's aimed, not toward Arizona.

`15770 [CONFIRMED] UNITED STATES (FL) WRMI at 2100. A confirmation of sorts: World of Radio heard, but difficult to follow today due to signal turbulence. We noted, however, the signal came way up at 2109 allowing for an ez listen. Signal went from "Poor" to Fair", but reverted back again at 2120. Px concluded then at 2128. --- Fair 9/21 (Rick Barton, Sun City, AZ with Drake SW1, longwire)`

Also confirmed Sunday September 21 at 2300 on WRMI 9395, S9/+10 direct vs high noise level.

Also confirmed Sunday September 21 at 2335 the 2330 on WRMI 9455, S9+40 into Georgia SDR; and VG direct at 2353. BUT! cut off short at 2356 to repetitive song fill! If anyone notice this on any WOR playback, please let me know. It's always exactly 29 minutes long.

Reception report #2313: good evening Glenn, please accept my reception report of WOR #2313 on WRMI at 2330 UTC 9455 khz. SINPO = 55545. Fort Walton Beach, Florida, 30.44N 86.65W, Tecsun S2200x, MFJ-1046 RF preselector, 100' center-fed sloper V dipole antenna, Thanks and 73👍!! Harry Frey`

`Harry, Tnx for the report. I was also listening to this, and found I was cut off for music about 2356, with 3 minutes to go... I guess at FWB you are close to the direct beam of 9455 as am I. Glenn`

`Hi Glenn and thanks for the rsvp. I was going to mention to you that yes indeed, you were cut off at 2356 and this isn't the first time WRMI has done this to your Sunday evening rebroadcasts. It's sometimes been as little as 1 minute and tonight it was 4 minutes. WTH??? Have a good week sir, look forward to WOR #2314👍 Harry`

`Harold Frodge, Alachua FL, Drake R8B + 60' RW (p) means "presumed", no ID heard:

9395 WRMI Radio Miami Int'l (p); 2316-2335+, 9/21; Glenn Hauser's World of Radio #2313; used an item of Andy Robins from the MARE Tipsheet. WOR to 2329 then pop music w/o any ID. SINPO=33233, QRN in waves; good to wiped out. (Frodge-FL)

9455 WRMI Radio Miami Int'l (p); 2336-2345+, 9/21; Glenn Hauser's World of Radio #2313. S30 peaks; QRN in waves but overall much better than on WRMI 9395 half hour earlier. (Frodge-FL)``

Also confirmed UT Monday September 22 at 0030-0059 complete on WRMI 7780, S9/+10 into S TX SDR.

Also confirmed UT Monday September 22 from 0300 sharp on Area 51 webcast only, as WBCQ 5130 -87 Hz = 5129.913 has just started signing off. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2313 monitoring: missed checking Monday September 22 at 1930 on SW Gold Radio, Germany, 3975 & 6160: did anyone hear it? Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2313 monitoring: confirmed UT Tuesday September 23 at 0330 on WRMI 7780, S9+10/25 into S Texas SDR.

Not confirmed Tuesday September 23 at 1309 the 1300 on WRMI 9955, since that frequency is *off*! But 9395 is on; and WOR soon confirmed on WRMI webcast-only of System B which would be 9955.

Tuesday September 23 at 1425, ditto same situation for the 1400 on WRMI. At 2200 check, 9955 is still off the air.

Not confirmed Tuesday September 23 at 2000 on IRRS SW via AM Italia, 1323 kHz, because it's *off* the air, no signal into nearby Noale SDR, just traces of somethings elses, Romania, Iran? Not on 918 or 207 either.

Also confirmed Tuesday September 23 at 2330 on SW Gold Radio, Germany, 3975.002 into UTwente.

Also confirmed UT Wednesday September 24 at 0048 the 0030 on WRMI 9395, S9+10/20 direct.

Missed checking Wed Sept 24 at 1930 on SWR Germany 3975, 6160; anyone?

Also confirmed Wednesday September 24 at 2100 on WBCQ 7490-, S7/S9 noisy into Georgia SDR; preceded by TOMBS, and now BCQ is inserting an outro in BS' own voice rather than just chopping it off cold.

Also confirmed Wednesday September 24 at 2330 on WRMI 9395, S9+25/30 into Georgia SDR; following Prague in English. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks to Peter Robinson, Preston UK, for very generous financial support, via PayPal to woradio at yahoo.com

Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Sept 19 at 2349, into the other NH SDR: 3265.124 is ON! for a change, S6/S7, a sign that finally a new show be imminent, as they don't bother to turn it on for repeats, with FKB. 5130 -87 Hz = 5129.913 also on S7/S8 with jazz music; a bit later seems to be // not synch with Area 51 webcast. 6160 JBA carrier, so not? WBCQ yet. 7490 -69 Hz = 7489.931 with FKB // 3265+. 9330 WLCR Portuguese S9+10. Calibration of this SDR is accurate within 1 Hz compared to WWV.

On 7490 & webcast, a few sex before 0000 UT Sat Sept 20, FKB cut off for ID, and live comments before WT0 theme: sun keeps turnin`, good ol` life keeps going on == good ol` analog WBCQ is here. Finally gets Angela on the phone; admits it's been 6 weeks since last new show, now it's Sept 19, 2025, TCB. Free Speech under assault: Charlie Kirk gunned down by a ``leftwing wackadoodle`` - at this early point I mostly lose interest in the rest even tho occasional chex indicate they go on to other stuff. Says on all 5 transmitters at 0009, but I still don't hear 6160. It is there however by 0026 check at S9+20 (Glenn Hauser, OK, WOR)

** U S A. 9330, Sept 24 at 1914, no signal from WLCR/WBCQ; but on by 2005 check (Glenn Hauser, OK, WOR)

** U S A. 5850, 7570, 7730, 7780, Sept 21 at 0629, WRMI relaying WRN on all these, only, presumably after DW (Glenn Hauser, OK, WOR)

** U S A. 15770, Sun Sept 21 at 2300, WRMI with NHK Newsline, quite an improvement over Overcomer Ministry still on the System K sked for this hour Sundays only. It's really a WRN relay, with NHK sked at this time daily, while System K says WRN M-F only. SAWA (Glenn Hauser, OK, WOR)

** U S A. I've noticed that the phone number Jeff sometimes announces cannedly on air to hear WRMI System B programming, whether or not 9955 be on the air, is NOT the same as on the website wrmi.net, so which is it? ``Listen to our 9955 kHz live stream via the telephone. Call +1-641-741-1762 anytime, 24/7.`` Instead he utters ``+1-712-432-8868``. I'm not about to try either, but there you go. AC 641 is central Iowa, where else? AC 712 is western Iowa, where else? something's odd at Okee (Glenn Hauser, OK, WOR)

** U S A. 17790, Sept 24 at 2215, S9/+10 of Spanish religion on WRMI, which per WRMI-7 xmtr skedgrid finishes at 2200; while System E shows

it on WRN at 2200-2400, but that would be English. Perhaps a Radio PanAm program rather than R. Africa. 9955 is still off. 0, here's an explanation just posted circa 2330 Sept 24 on FB of WRMI:

``WRMI Radio Miami International 25m · Notice to WRMI Listeners: Our 9955 kHz transmitter is temporarily off air for some repair work. In the meantime, programming normally heard on 9955 kHz is being broadcast on 17790 kHz, as well as on the regular Internet live stream at www.wrmi.net`` and also from 3 days ago:

``WRMI Radio Miami International 3d · Starting Wednesday 1st October 9pm ET on 9955 kHz – SJTJ – Sunny Jim's Trance Journey. A chance for me to share with you some of today's music I currently enjoy listening to. I'll be playing a selection of uplifting, melodic, well sung & well crafted songs from an electronic genre. If this is new to you – don't be alarmed – why not join me, Sunny Jim, to see if I can persuade you there's more to music than the songs we already know! Visit us on the web at: sjtjradio.com`` (Glenn Hauser, OK, WOR)

** U S A. 12050, Sept 22 at 2216, WEWN is on in Spanish, S7/S9. Had been AWOL for at least a week on random day and evening chex (Glenn Hauser, OK, WOR)

** U S A. 17525, Sept 24 at 1908 & 2005 chex, WMLK is off (Glenn Hauser, OK, WOR)

** U S A. 760, Sept 19 at 0617 UT, gospel huxter in English overcoming poor WJR. Surely it's Bott's KCCV Overland Park KS, U4 6000/200 but on day power and pattern which is NE/SW thisaway; night pattern also favors SW supposedly protecting WJR (Glenn Hauser, OK, WOR) see also MEXICO

** U S A. 990, Sept 18 at 0611 UT, Spanish dominating, religious, again suspect KFCD Farmersville TX [Metroplex] on 7 kW day power instead of 920 W at night, as not normally audible vs CBW and everything else (Glenn Hauser, OK, WOR)

** U S A. 1070, Sept 22 at 0605, ``KHM0 weather center``, into `Red Eye Radio`. Is U4 5/1 kW, Hannibal MO. Radio-locator shows site really in MO, not IL, night notch to SSW, but maybe enough of a lobe to the SW.

No sign of KFTI Wichita, which BTW is perpetually way off-frequency-minus hetting anything else. They have had a Special Temporary Authorization for quite some time, and as in Sept 23 NRC DX News: ``Extensions of prior STAs granted (usually for an additional 6 months): 1070 KFTI KS Wichita – Granted STA extension, parameters at variance.`` – like what? they never say. Adjusting frequency should not be difficult! (Glenn Hauser, OK, WOR)

** URUGUAY. 28448 USB, Sept 22 at 2202-2205, CX7RN, S9+10 making quick contacts, some contest? with 1 kW, 3-el yagi, Pablo/Paul including 6Y5CB Jamaica also heard. QRZ.com: ``CX7RN Uruguay flag Uruguay, JOSE FELIPE PEREZ BERINDUAGUE, CHALET MASAPAN-SAN CONO S/NO.PDA.13, PUNTA DEL ESTE MALDONADO, Uruguay`` (Glenn Hauser, OK, WOR)

** URUGUAY. 28468 USB, Sept 22 at 2209, CX6DZ, Omar, working 6Y5CB Jamaica, also heard. QRZ.com: ``CX6DZ Uruguay flag Uruguay, OMAR GABRIEL BOLLA RODRIGUEZ, calle de los picaflores MZ 139 S,4 /mi whatsapp +59899350201, MONTES DE SOLYMAR 15800, Uruguay`` –

His page also has a map showing different letters corresponding to different regions in the country, same setup as Argentina. Also had an unID CX calling CQDX at 2207 on 28507 USB. It's over 9 megameters from I-see-a-mountain to I-don't-see-any-mountains in Oclajoma (Glenn

Hauser, OK, WOR)

** VANUATU. 9960, Sept 18 at 0601, RV is JBA, back on the air, no signal last night nor on 7260. As Ron Howard explains: ``Hi Glenn - Recently I had been enjoying Radio Vanuatu (9960) around 0445 UT, with the excellent "ABC Pacific Beat" coverage of PNG's 50th anniversary of independence. But today I am monitoring about 0445+ UT (Sept 17), and am not hearing any signal on 9960, 7260, 5040, 3945 or 2485 kHz, checking via Kiwi SDR remotes in New Zealand. Have alerted the station, so hope for their quick return to the air. Ron``

``Hi - Sept 18, at 0333 UT, hearing a very nice signal on 9960, in French, via New Zealand remote. Happy they are back again. Ron``

``Hi Glenn - Sept 18 reply from Radio Vanuatu: "Hi Ron thank you for listening to Radio programs on short wave. There was a power cut recently, but we have managed to run everything again and hope you are enjoying the programs on Radio Vanuatu shortwave. Regards"``

But my next check at 0712 Sept 18, 9960 is off; EiBi shows 9960 changes to 3945 at 0658/0659 (Glenn Hauser, OK, WOR)

** VANUATU [and non]. 9962.53, Sept 21 at 0635, low pulsing QRMing 9960 RV (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 780+, Sept 21 at 0637 UT, very strange whine QRMing WBBM only on the upper side, but OK with LSB tuning for `StarDate` at 0640 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1030 kHz, Sept 22 at 0606 UT, YL with praise song in Spanish. Probably KCWJ Blue Springs MO, Radio Vida, U4 5000/500 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1190, Sept 22 at 0432, Spanish better on the N/S antenna, seems // 1140, which would be XEMR during `La Hora Nacional`. XEPZ, Juárez is usually heard (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1530 kHz, Sept 22 at 0430 UT, Spanish music heard on N/S antenna only, so not the OK; of the two in TX, despite much lower power, the usual one heard is KZNX Creedmoor U7 10000/220, which is near Austin rather than El Paso address in NRC AM Log; rather than KYWW Harlingen, U8 50000/10000; also one Mexican possible, XEUR CDMX 50/1 kW (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, Sept 22 at 0438, mystery JBA carrier again (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7475, Sept 21 at 0628, JBA carrier, presumed Station YHWH as sometimes runs late, but gone right away (Glenn Hauser, OK, WOR)

UNSOLICITED TESTIMONIALS

``Dear Mr Hauser, I am sending this donation to help continue your great work in promoting our hobby! I feel guilty not sending something sooner! I have been a listener to your program since you first began many years ago. I am 83 yrs old and have been an SWL and DXer since 1955. These days I enjoy most of my listening via `remotes` over the world on my I-pad! As you know, they are great, especially the University of Twente in Holland, Walt in BC, ??? Australia. Thanks for all you do in these depressing times! Best wishes, Jim Snow, St Simons Is., Georgia``
